

# VIS Research 2023-25

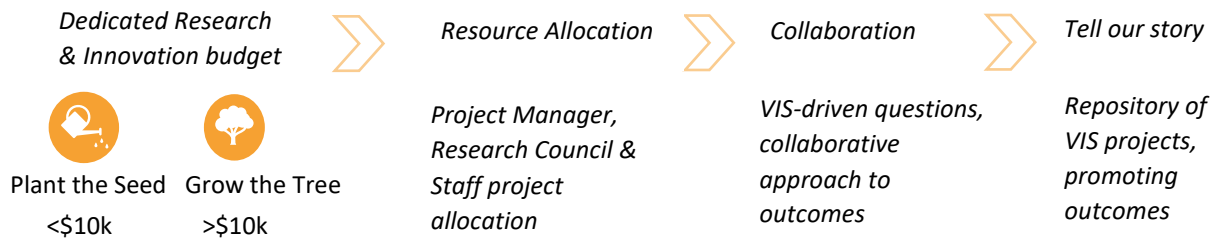

## Our Research Mission:

To support research that drives high performance outcomes.

## The VIS Research Council:

Our objective is to develop VIS research policies and resources, provide guidance on proposals, award funding, facilitate integration & implementation with sports, and promote projects at the VIS.

## Our Commitment:

## VIS Research Priorities:

VIS Research aligns itself with the National High Performance Research Agenda. Below are the specific research priority areas that have been identified throughout the organisation. VIS will also place a high priority on research that is innovative, undertaken in Para or Indigenous athletes, and has female lead researchers.

*\*VIS Research applications require a VIS Lead Researcher to be involved. Proposals should have program &/or discipline support, and NSO support (if applicable).*

## How to apply:

Complete the [VIS Research Grant EOI](#) form, providing a brief project pitch and budget overview. The VIS Research Council will then provide feedback and guidance to assist in preparing Grant submissions, along with the VIS Research Grant Application link. Please check the VIS Website [VIS Research Council — Victorian Institute of Sport](#) for the next Research Grant submission dates. Please direct any enquiries to [research@vis.org.au](mailto:research@vis.org.au).
